Dear Families,

Like many of you, we are aware of the recent media coverage about child safety in early learning settings. We understand that these stories can be worrying, and we want to take a moment to reassure you about the care, protection, and support we provide to every child at our service.

Your child's safety and wellbeing are our highest priorities. We are committed to creating a safe, nurturing environment where children feel secure, supported, and confident to speak up if something doesn't feel right.

As part of this commitment, we take a proactive approach to child safety by:

- Embedding age-appropriate child safety education into everyday learning and play
- Teaching children about personal boundaries, body ownership, and asking for help in calm, child-friendly ways
- Ensuring educators use consistent, reassuring language across all rooms
- Providing ongoing training so our team feels confident supporting children and families

Our approach to child safety education is gentle, positive, and focused on empowering children, not frightening them. We aim to give children the language and confidence they need to express their feelings and seek help, while always feeling safe and supported.

We also believe that strong partnerships with families are essential. If you have any questions, concerns, or would like to talk further about how we support children's safety and wellbeing, please don't hesitate to speak with your child's educator or a member of our leadership team.

Thank you for trusting us with the care of your child. We value that trust and remain committed to working together with families to create a safe, supportive environment for every child.

Warm regards,
